# ABOUT US

## We are leaders of the surveillance security technology services industry

Our passion for security solutions has propelled us to keep up with technology as we aim to educate, equip, and inform our clients of market trends, security risks, and how to mitigate them. As specialists, we offer solutions in the security field, having aligned with selective brands to resell particular products to provide knowledge through our sales and technical support teams.

We are proud to be **resellers** of:

- **TVT**
- **PARADOX**
- **FORBATT**
- **VECTOR POINT OF SALES NEMTEK**
- **WESTERN DIGITAL**
- **TP-LINK**
- **TEND**
- **PEAK POWER**

and many more products.

## WHERE WE STARTED

Skynatics Security Technology CC was founded in 2006 under the name Retail Corporation and based in Centurion, with a primary focus on domestic and retail security solutions including point-of-sale.

**Our Edenvale branch opened its doors in 2014.**

# WHAT WE DO

## WE AIM FOR CLIENT SATISFACTION

We exceed service expectations through our equipped and well-trained staff and we want our clients to feel at home so we choose to make our engagement a positive one every time.

## WE SELL A SERVICE

Our clients have peace of mind that if the product was purchased with us, then we will advise on the security solution and provide the best after-sales support.

**We strive for a service that is one of a kind and can only be experienced first-hand with real people that have our same passion for security!**

## WE PROVIDE THE BEST VALUE FOR MONEY

As we promote reliable products at the best value for money.

## WE OFFER AFTER-SALES SUPPORT

Our great point of sale technical team is willing and ready to support the installer both on-site or via remote support.

**We choose to support installers of CCTV and alarm systems as well as any retail client with a Point-of-Sale. Our team is here for the customer that needs an installer or one that just needs help. Skynatics is here for YOU.**

**Our connections with leading brands have given us access to a higher level of security solutions and products.**

Through our well-equipped and trained Sales and Technical teams, we seek to provide the best possible advice and technical support whether on-site or remotely.

# OUR SERVICES

## Software Installation

Installation of a professional security system or intrusion detection system must be done by a qualified trained Specialist to ensure proper installation and performance of your security system.

Certain laws are in place to regulate the proper installation and operation of these systems to safeguard against any malpractice of accredited installers.

We also provide after sale support for Vector Software - a very important part of purchasing a product from us! We do not just sell a product. We also sell a service to you and are here to help should you need any assistance. The following Vector Products are available for Purchase on our website – Vector Back Office, Vector Point of Sale and Vector Till License.

## On-Site Support

Our great point of sale technical team is willing and ready to support the installer both on-site or via remote support. We choose to support installers of CCTV and alarm systems as well as any retail client with a Point-of-Sale. We are here for the customer that needs an installer or one that just needs help. **We are here for YOU.**

## Remote Support

Remote access to your security systems is made possible using special IP-based modules and linked to android and IOS applications found on Google Play and Apple I-stores. You will be able to access your device from **anywhere in the world by a click of a button.**
